TTS operates Ukrainian grain in Constanța from the damaged ship in the Black Sea

TTS Group will handle the 26,550 tons of Ukrainian grain purchased by the Egyptian government through the General Authority for Supply Commodities (GASC), which were on a ship damaged by a missile during the night of September 11-12 in Romania's Exclusive Economic Zone in the Black Sea while en route from Chernomorsk (Ukraine) to Egypt. The ship was redirected and arrived at the Port of Constanța.

TTS Operator and Canopus Star will work together to recover the grain from hold No. 3, which was damaged by the explosion. After TTS Operator segregates the unaffected cargo, Canopus Star will clean and dry the affected grain from the damaged hold.

The grain from the other four holds of the ship, along with the grain recovered from hold No. 3, will be transhipped by TTS Operator after the ship designated to take over the cargo from the damaged vessel is assigned.
