1. GENERAL INFORMATION

TTS (Transport Trade Services) S.A. (hereinafter referred to as "the Company") is a company established in Romania in 1997, with its registered office in str. Vaselor nr. 27. Bucharest.

The main activity of the Company is represented by transport activities and related to transports. TTS (Transport Trade Services) S.A. operates as a freight forwarder in domestic and international transport, mainly inland waterway transport. The company offers integrated services, from the pick-up of goods from the river or seaport to the point of destination.

The company is active in the international freight forwarding segment and is organized into three divisions:

1. Minerals – which provide logistics operations for raw materials and finished products of metallurgical industries and equipment.

- 2. Agri which deals exclusively with the logistics of agricultural goods (cereals, seeds, vegetable oils).
- 3. Chemical dealing with fertilizer logistics and raw material for fertilizer production.

2. MAIN ACCOUNTING POLICIES

2.1 Declaration of conformity

Simplified individual financial statements for the period ended June 30, 2023, they were developed in accordance with the principles of recognition and assessment of the International Financial Reporting Standards ("IFRS") adopted by the EU and in accordance with IAS 34" Interim Financial Reporting".

The summary individual interim financial statements do not include all the information and items presented in the annual financial statements and must be read in conjunction with the annual financial statements of TTS (Transport Trade Services) S.A. prepared as of December 31, 2022.

The simplified individual interim financial statements for 01.01-30.06.2023 are not audited and have not been reviewed by an external auditor.

The accounting methods and policies applied by the Company in these simplified interim individual financial statements are the same as those applied in the Individual Financial Statements at the date and for the financial year ended December 31, 2022.

2.2 The basics of drawing up

Simplified financial statements have been prepared based on historical cost, except for certain financial instruments that are measured at revalued value or fair value as explained in the Hotel policies Accounting. Historical cost is generally based on the fair value of the consideration made in exchange for the assets.

The simplified financial statements were drawn up based on the business continuity principle, according to the convention of historical cost adjusted to the effects of hyperinflation until 31 December 2003 for capital social, reserves, and investments. These financial statements were prepared based on statutory accounting records in accordance with the Accounting Principles of Romania, which were adjusted to comply with the IFRS adopted by the EU.

The ongoing war in Ukraine and the related targeted sanctions against the Russian Federation may have an impact on European economies and globally. However, the impact on the overall economic situation may require a review of certain assumptions and estimates.

At this stage, management cannot reliably estimate the impact, as events unfold day by day. The longer-term impact may affect profitability because of rising prices in general and energy in particular.

At the time of these financial statements, the TTS Group carries out its normal activity, the contractual obligations are fulfilled as they reach maturity and, therefore, the continuity of the activity is in complete safety.

The principle of business continuity. The company operates based on the principle of continuity of activity. This principle presupposes that the entity normally continues its operation without going into liquidation or significant reduction in business.

(all amounts are expressed in RON, unless otherwise specified)

2.3 Accounting estimates

The entity makes certain estimates and assumptions about the future. Estimates and judgments are continuously evaluated based on historical experience and other factors, including expectations about future events deemed reasonable in the given circumstances. In the future, actual experience may differ from these estimates and assumptions.

3. TURNOVER

We present below an analysis of the Company's revenues related to the period, coming from continuous operations:

11. SUBSEQUENT EVENTS

The Competition Council issued decision no. 75 of 17.05.2023 of no objection regarding the economic concentration operation achieved by the acquisition by TTS (Transport Trade Services) S.A. of sole control over Decirom S.A. The transaction was completed in July 2023.

On June 19, 2023, the General Meeting of TTS Shareholders was held, during which it was decided, among other things, to acquire 99.9% of the share capital of Decirom S.A. at the price of 21.8 million euro, as well as contracting a loan of 11.5 million euro to finance this transaction. The transaction was completed in July 2023. The shareholders also approved the addition of investment budget for the current year, up to 42 million euro.
